PRODUCT DESCRIPTION:

+ Outer jacket is orange PVC coated polyester with 3M™ Scotchlite reflective tape and has received independent ANSI Class 3 certification. Snap on, hideaway hood, flip up collar, zipper and snap front, radio pocket, two outside hand pockets, dark cuffs, collar and waistband. Elasticized cuffs and waistband. Meets ASTM F 1671 against bloodborne pathogen penetration. Nylon lining.

+ When it is not quite so cold out, zip out the inner polar fleece jacket and wear the Bomber Jacket as a two layer jacket, still ANSI Class 3.

+ Zip off Bomber Jackets yellow sleeves and wear as a Class 2 Vest. When wearing the jacket without yellow sleeves, as a Class 2 vest, the inner fleece jacket with fleece sleeves can remain in place.

+ Remove the inner polar fleece jacket lining with sleeves, leaving a Class 2 sleeveless yellow outer vest with reflective striping.

+ Lastly, the blue, non-compliant, inner polar fleece jacket can be worn alone on cool days, when working away from traffic.
